

CALL FOR PROPOSALS

8th ANNUAL
CONFERENCE

November 6-8, 2019
Orlando, FL

Doubletree by Hilton Orlando
at Seaworld

The Pediatric Complex Care Association will hold its 8th Annual Educational Conference at The Doubletree by Hilton Orlando at Seaworld on November 6-8, 2019.

The call for presentations for this conference is now open.

As a professional caring for children with medical complexity and their families, you understand the trends, issues, and challenges facing the organizations that provide pediatric post-acute and long-term care.

Now is your chance to share ideas that reflect your success stories and professional insight, as well as ideas and programs that enhance pediatric long-term and post-acute care service delivery.

We are particularly interested in proposals that demonstrate innovative programs and services and evidence based practices that improve pediatric post-acute and long-term care and new technologies.

The target audience for this conference is providers of care for children with medical complexity that include Physicians, Nurse Practitioners & Nurses, Pediatric Nursing & Group Home Administrators, Occupational, Physical, Recreation & Respiratory Therapists, Speech Pathologist, Social Workers and Special Educators. Given that this audience has significant experience caring for children with complex medical needs we are seeking proposals that reflect this level of knowledge. Proposals that present only basic-level information will not be selected.

We invite you to share this Call for Proposal with your colleagues.
