**Committee Updates**

- The APCM has been working on developing a Set of Clinical Triggers as part of the APCM's Incentive Program. This effort includes collaboration with the PCG, the APQC, and the APCM's Clinical Committee. The goal is to develop a set of rules that can be used to identify patients who may be at risk for hospitalization. The APCM has also been working on developing a set of benchmarks for the PCG, which will be used to measure the performance of the PCG's member organizations.

- The APCM's Education Committee has been working on developing a set of educational modules for the PCG. These modules will be used to train PCG staff and members on best practices for managing complex patients.

- The APCM's Advocacy Committee has been working on developing a set of advocacy strategies for the PCG. These strategies will be used to promote the PCG's mission and goals to key stakeholders, including policymakers and the public.

**New Members**

- The APCM is pleased to announce the addition of the following organizations to the PCG's membership:
  - The Children's Hospital of Philadelphia
  - The Children's Hospital of Philadelphia Foundation
  - The Children's Hospital of Philadelphia Research Institute

**Facility News**

- Sunshine Children's Home and Rehabilitation Center has announced the opening of its new facility, which will provide specialized care for children with complex medical needs. The new facility includes state-of-the-art medical equipment, a dedicated staff, and a comfortable environment for children and families.

- The Children's Hospital of Philadelphia has received a $5 million grant from the Commonwealth of Pennsylvania to support its efforts to improve the quality of care for children with complex medical needs. The grant will be used to fund research, education, and patient care initiatives.
